Dear Parent(s) of _____,

As you know from our district letter explaining Multi-Tiered System of Support (MTSS), we are providing additional—support services to our students. After reviewing your child’s current assessments and progress, our Intervention Team has determined that your child needs an additional level of strategic support (Tier II) in the area(s) of:

_____At Tier II your child will be given additional **ELA** support. Your child will continue to receive ELA instruction in the classroom, but we will now be adding targeted reading intervention. Additionally, they will be progress monitored weekly.

_____At Tier II your child will be given additional support in **math**. Your child will continue to receive math instruction in the classroom, but we will be adding targeted math intervention. Additionally, they will be progress monitored weekly.

_____At Tier II your child will be given additional **social/emotional/behavioral support**. This **may** involve: observations of your child, consultation with you or your child’s teachers, classroom-based strategies or intervention, or short-term, skill specific interventions with the school counselor, school social worker, and / or school psychologist.

We will provide you with updates to your child’s progress. At that time, one of the following will be recommended: (1) move to back to Tier I (2) continue Tier II services or (3) move to Tier III services. If lack of progress is still a concern, we may need to consider additional support through our special education program.

If you have any questions, please contact your child’s counselor. Your child’s success is our primary focus!

“A caring district — working together”
