

Art

Do you like to do art? Well I do. So today I will tell you about art. In art there are so many things to do. Painting, drawing, coloring, cutting, etc. When your doing art you can be as creative as you want. For example, a pretzel house walking. I would say that's very creative.

Art does not always have to be good. Some of the worst paintings and drawings have won awards for being the best work of art. Sometimes when your drawing something and you mess up you don't always have to erase or start over, you can keep going and your drawing could turn into something no one has seen before. Or it could turn into a pretzel house walking as I mentioned before. You can mess up on something you were originally trying to make, but it can turn into a funny but great drawing.

You can have art on food or in food too! On cakes you can write or put a picture in frosting on the

top. You can bake letters into cupcakes
or bake pictures into them too!
